

Guide To Purchasing A DIY Granite Vanity Top

DIY Granite Vanity Tops are a convenient, well-priced option to upgrade your bathroom to a granite countertop.

Stone by Nature is the direct importer and distributor of a large selection of premium pre-made granite countertops to fit standard sized bathroom vanity cabinets. Standard sized bathroom vanities are 30, 36, 42, 48, 60 and 72 inches in width. Up to 48 inches the vanity cabinet is limited to one sink installation above this there is the option of installing a double sink installation.

When selecting a vanity top be aware that the vanity top is always 1 inch larger than the cabinet, this is to allow for an overhang on the side.

Single Sink DIY vanity tops are all centered sink designs, if you require an offset sink location please see custom vanity tops.

Double Sink DIY vanity tops come pre-made with the sink centers located in common configurations, 61 inch DIY vanity tops come in 12 or 15 inch sink center configurations and 73 inch DIY vanity tops are 18 inch sink center location. If you require a specific layout please see custom vanity tops.

All DIY Granite Vanity Tops are made from 2cm (3/4 inch) thick premium granite.

The front edge and around the sink cutout are ogee edge profile.

The side edges are eased (flat) polished to allow installation against a wall or used in and exposed installation.

Backsplash is 4" in height and matching granite in color, backsplash is included in the price.

Sidesplash are optional and will fit from the front of the backsplash to the start of the ogee edge profile.

Standard faucet configuration is 8 inch widespread, some are straight and some models are contour layout. We have a few models available in 4 inch and single hole configuration email for color selection if this is a requirement.

All DIY Granite Vanity Tops use oval ceramic undermount sinks, available in white or bone (biscuit). Sink size will be either 13 X 17 inches or 12 X 15 inches, size is fixed and not an option.

All vanity tops are shipped with the sinks in separate boxes, all hardware for quick and easy homeowner installation are included in the box with the sink. We do not attach sinks prior to shipping as this makes them impossible to crate for safe delivery.

Sink installation and handling instructions are in the sink box, please read carefully prior to handling or installing your granite vanity top.

All Granite Vanity Tops are shipped in custom made wooden crates and delivered by transport truck, experience has shown this is the **only** way to safely deliver this product.
